SEIU PLAYS RUSSIAN ROULETTE WITH SECURITY OFFICERS' PROTECTION

SEIU and each and every one of their locals may never have an election certified by the National Labor Relations Board to represent security officers. We repeat, never. For your reference, labor law Section 9(b)(3) of the National Labor Relations Act. SEIU cannot get around the law! This significant law also prohibits security officers from "switching" to any other union other than a pure security guard union. SEIU is what is known as a "mixed" union. They represent janitors, porters, etc. They even represent strippers. SEIU will represent anyone, provided they will pay their exorbitant dues, after all, this is what they are about. This is not the union which should be representing security guards.

What SEIU will NEVER tell its union security officers is that any guard company at any given day can LEGALLY tell SEIU they no longer recognize their union as a security officer's union! Just as quickly as an officer can blink an eye, they will be without union protection even after paying ALL THOSE HIGH UNION DUES!!!! Make no mistake about this fact; SEIU will continue to deduct union dues from officers even after they are told by guard companies that they are no longer being legally recognized as a security union. The SEIU security officers will continue to pay union dues to a union that can't offer one ounce of protection to them.

DON'T PLAY THEIR DANGEROUS GAMES ANY MORE!!!

TAKE THE GUN OUT OF SEIU'S HANDS!!!
