

**S.O.S.**

## **SECURITY OFFICERS SOLIDARITY**

Join our efforts to permanently rid our industry of the security officer exploitation! Support our pledge to vigorously change the poverty standards within the security guard industry. Stand up and be heard for a better tomorrow for all security officers across the country. Let us finally display our true strength to guard companies and their clients across the country by joining together as one! From the officers as far South east as Miami, Florida to the tip North east of Maine. From Maine to Seattle, Washington and all the way to Southern California.., every licensed worker that provides any form of security duty join in our quest and participate in our first National S.O.S. rally! Our campaign is flawless and obtainable. Organize every licensed security officer in the United States and the working security officers and not the guard companies, control the labor pool of security officers. Guard Companies will have no other alternative but to terminate the sub-standard conditions in the security industry. They will have no other State to pull replacement workers from when every state will be S.E.W.U. Members. Let us finally put an end to the poverty wages with no benefit plans. Let us also be compensated with vacation, sick days and 401K plans. Let us be rewarded from the large profits we generate for the guard companies..., we earned it and we are worth it!!!

**ENOUGH WITH THE STALLING TALKS FROM THE GUARD COMPANIES!!!**

Our 1<sup>st</sup> S.O.S. rally is slated for **JUNE 15, 2009**. We encourage ALL ONE MILLION licensed security officers across the country to abandon and not report to any and all security officer assignments for all security guard companies from 12:01AM to 11:59PM on June 15, 2009. One day without security officers across the country will send our message to every security guard company in the United States. Our message will be loud and clear that our demand for change will take place IMMEDIATELY or no security officer across the country will man a post if our demands for change are not met. It can be done..., but only if we change as ONE!!!

**JOIN TODAY, BECOME A S.E.W.U. MEMBER & TAKE CONTROL OF YOUR INDUSTRY**
